## **ANNOUNCEMENT TO COMPETITION ORGANIZERS**

In a Championship or Scottish National Dance Premiership there must be at least six competitors in the first dance in order for the event to count as a Championship or Scottish National Dance Premiership. If the event has been advertised as a Championship or Scottish National Dance Premiership but there are not enough competitors on the day to proceed as such:

- **Dancers do not have to dance set steps.**
- **“Full steps” do not have to be danced.**
- **Event may be judged by 1 or 3 judges.**

All Organizers must include the order of the Scottish National Dance Premiership dances on the entry form and must post this information at the event for all judges, pipers and dancers. The order of the dances should also be announced prior to the start of the event. Judges need to ask for this information if it is not provided.

All dancers competing in a Championship or Scottish National Dance Premiership must be pre-registered for the event. No field entries for these events are allowed.
